

Halloween in
different
countries.

What is Halloween and how it was created.

- Halloween is a masquerade holiday celebrated in many countries on the evening of October 31. References to Halloween are often seen in popular culture, mainly American.
 - The tradition of Halloween dates back to the Celtic holiday of Samhain, marking the end of summer. In the Irish County of Meath, the holiday has already been celebrated by 2,000. years ago. The Celts believed that this was the time of transition during which the veil separating the worlds of the living and the dead fell down.
-

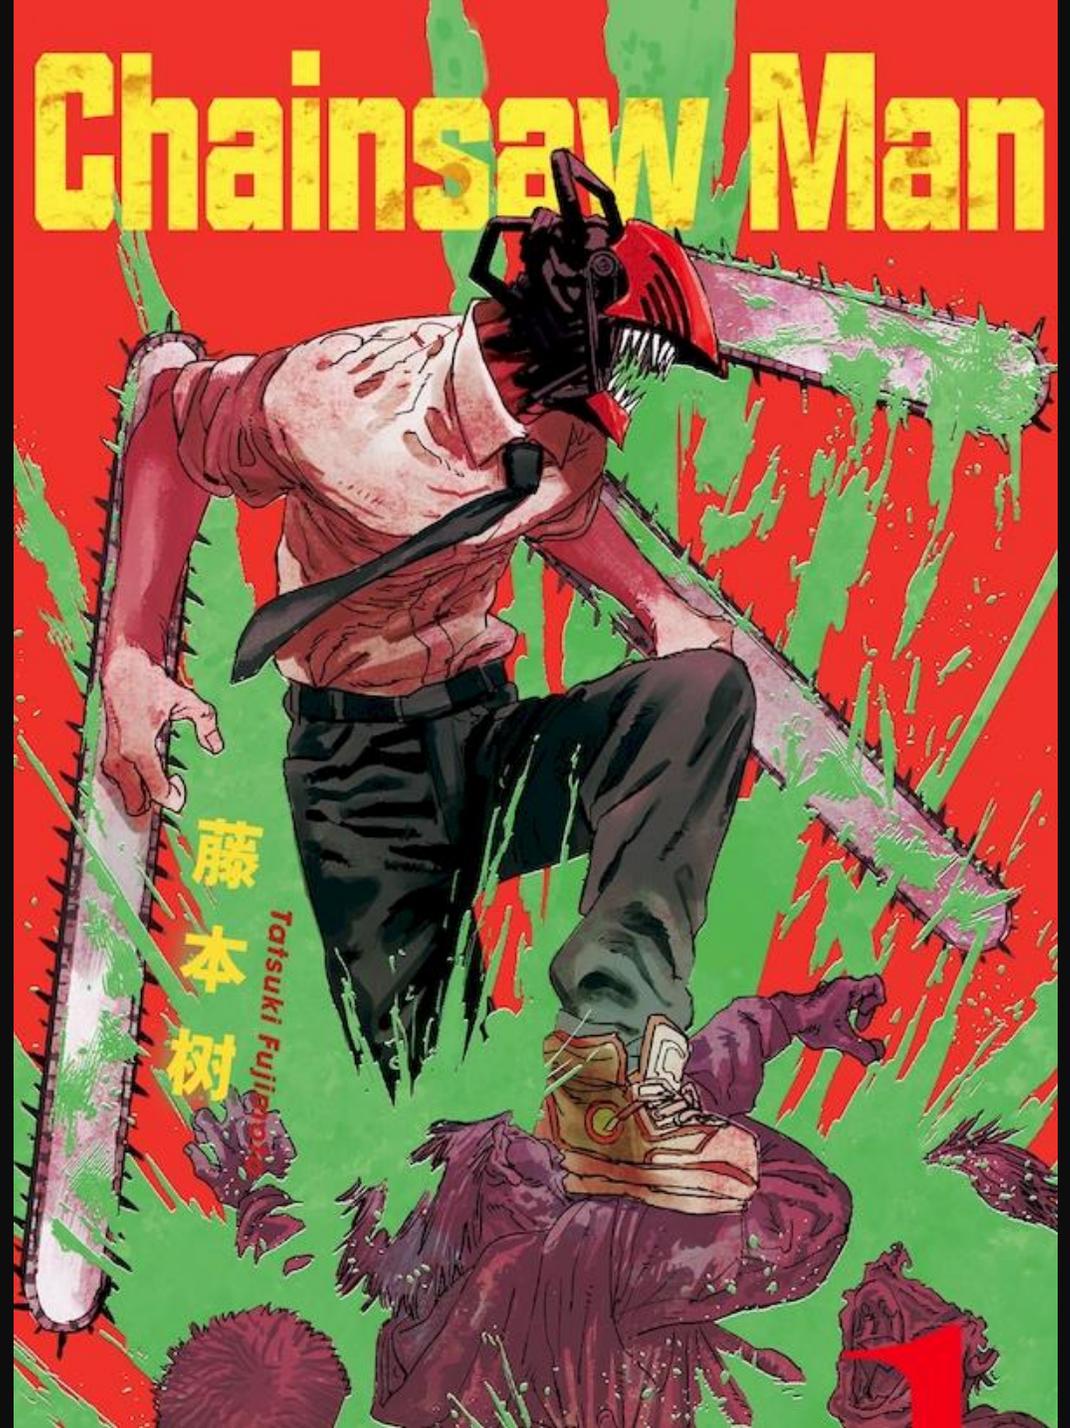

Halloween in America.

- Late in the afternoon on Halloween, kids in disguise, accompanied by their parents, wander from house to house, begging for sweets. By knocking on the door, they always shout out the famous "Trick or treat". They receive sweets and even small gifts for it.

Halloween in Japan.

- The entire month of October is a time of hectic preparations for Halloween throughout Japan. Lots of stores are decorated with hollow pumpkins, special "spooky" or pumpkin editions of products appear on the shelves.
 - In Japan, cosplay is popular, i.e. dressing up for something this year, there is a Chainsaw man outfit from the popular manga called "Chainsaw Man".
-

Halloween in Poland.

- In Poland, I do not celebrate Halloween too much, but with the next Halloween, you can see that in Poland it is becoming more and more popular, and newer generations are starting to celebrate it.

Halloween in Britain.

- Halloween is great fun. Decorating houses, preparing costumes and traditional dishes is great fun for adults and children. This holiday is celebrated with the same grandeur and passion as Christmas.
- There is no Halloween without scary costumes. They are valid for both children who go from house to house as part of the trick-or-treat game and young adults who often spend this evening and night playing in popular clubs - tickets often have to be booked well in advance. Those who celebrate Halloween not only dress up as a zombie, vampire, witch, ghost or wraith, but also as a popular character from a horror movie or comic book.
